MESSAGE FROM THE DESIGNER

Thank you very much for supporting my Antique Fire Engine model! This fire engine is intended to emulate the look and features of many of the earliest horseless fire department vehicles. I was inspired to design this model by the legacy of my wife's grandfather, "Red" L.V. Denson, a former commissioner of North Kitsap Fire & Rescue in the State of Washington, USA. This model is dedicated to all the brave individuals who provide emergency services to communities of the world, and to my dad who has always helped me believe that anything is possible!

As a LEGO® hobbyist, the successful funding of production for this model has made an incredible impact on my life! Thank you from the bottom of my heart for the part you played in making this possible. I loved designing and building this model, and I hope you have a wonderful time assembling it!

While I am confident this model will look wonderful as is recommended in this manual, I also invite you to use it as a springboard for your own creativity. I can't wait to see your photos of the model as it is presented here or with any wonderful modifications you might make! Use **#BooneBuildsFireEngine** on social media to share in the fun with me and other Antique Fire Engine owners around the world.

Build on!

Boone Langston
BooneLangston

Since building the 6378 Service Station as a child, I've enjoyed building my own creations. I love building models that are symmetrical with balanced color schemes.

BL19002

ANTIQUE FIRE ENGINE

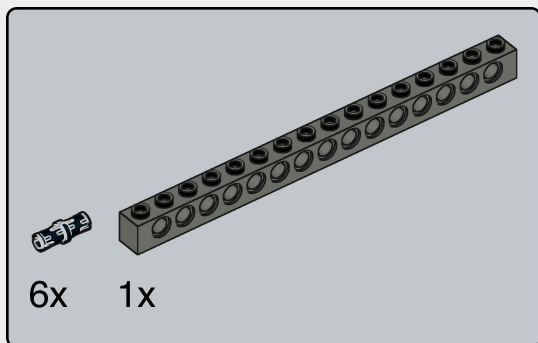

When there's a fire, you can count on the firefighters arriving ASAP and being well-prepared to protect the community. While in the Antique Fire Truck, firefighters will ring the built-in bell to alert nearby citizens that the firefighters need to hustle to the scene. While some are readying the hose to contain the fire, the others can use the ladder to save citizens on a higher floor. An extra fire extinguisher is located on the side of the truck in case one malfunctions.

After a long day of fighting fires, don't forget to thank and celebrate these heroes for rescuing your fellow citizens!

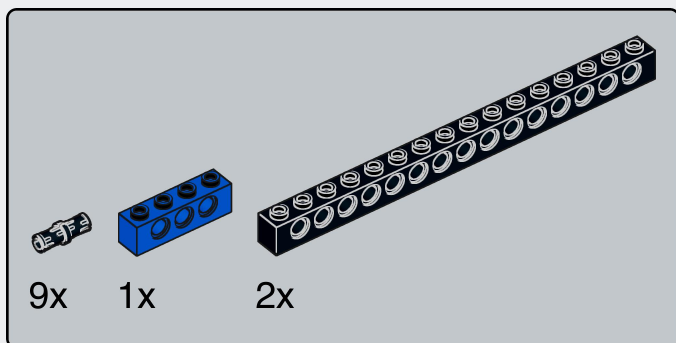

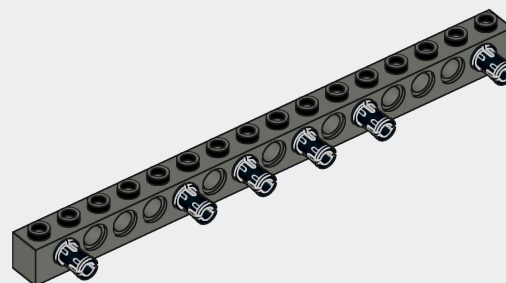

To provide a better building experience, the parts in this set are divided into stages. Stage numbers are marked on each bag (e.g. 1A, 1B, etc) and at the appropriate place in the instructions. All bags beginning with the numeral one should be opened first. After the first stage is built, open bags from the second stage and so on.
