# MESSAGE FROM THE DESIGNER

---

Dear buyer of Bikes!

I am really thankful for your support and hope that this design will find a nice place in your LEGO® city. I think Bikes! will diversify many of your LEGO cities equivalent to most of Earth's metropolises, which almost all have city bikes. As a thank you – maybe even mostly because I enjoy to – I already have and will design some more smaller, non-motorized vehicles to beautify our beloved LEGO cities. These can be found on my Studio gallery page on BrickLink.

I hope you will enjoy this build!

**Maikel de Vries**  
mdt.maikel

I'm a stereotypical AFOL whose dark ages continued for way too long. I want to build a large LEGO city at some point, so I design anything that would fit into it.

# BIKES!

---

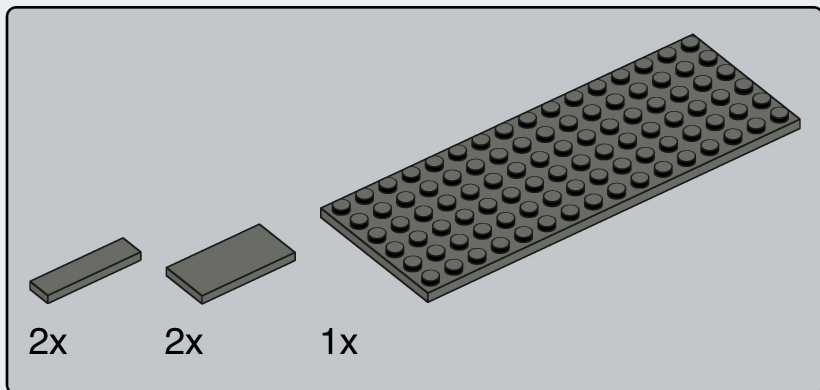

Make your way to a bike stand where both tourists and locals alike can ride a bike to explore the city and then set it aside just about anywhere after they are done exploring. A truck driver will pick up the bikes using GPS antennas that communicate the bikes' location to the truck's tracking system. Furthermore, it includes a carrier tricycle, which minifigures can use to transport groceries or, of course, their children.

With LEGO® cities being focused mainly on motorized vehicles, add another method of transportation with Bikes!

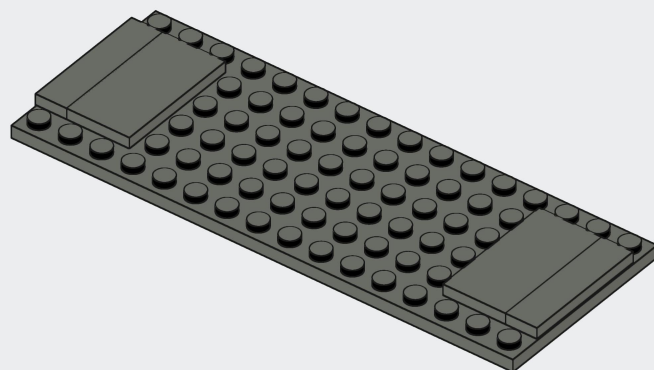

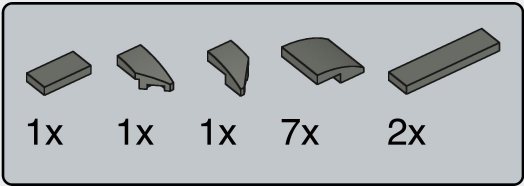

To provide a better building experience, the parts in this set are divided into stages. Stage numbers are marked on each bag (e.g. 1A, 1B, etc) and at the appropriate place in the instructions. All bags beginning with the numeral one should be opened first. After the first stage is built, open bags from the second stage and so on.
