MESSAGE FROM THE DESIGNER

Building with LEGO® has this positive, constructive, and therefore, inspiring nature to me. The LEGO system itself allows for basic play but also a sophisticated building experience. The evolution of the LEGO Minifigure is also very interesting to me. It allows people to dive into a playful world. Foremost, it's very unique that you can take parts from a product and create new experiences from it.

Developing social connections with friends and family has great value to me. The chance to express this connection in physical form was the inspiration for my design. Thanks to everybody at BrickLink and the LEGO Group who worked hard to realize this project. Greetings to all the other creators and a very special Thank You to you, the backer of this design. You made this little brick dream come true!

Building LEGO is about forming connections. Life is too.

Christian Bechinie
kleinraum

Started playing with LEGO in the late 1970s. My creations have the tendency to involve mechanics and physical play, and creating something with LEGO bricks is all about creating experiences.

EIGHT STUDS

Experience modern living using a flexible space for your minifigs with Eight Studs. One housing unit can easily attach or stack with another unit, so you can either create a 2x8 space or a two-story unit for your minifigs. The minimal design allows you organize and decorate rooms for activities such as hanging out or playing with LEGO bricks. Feel free to move things around until you find that perfect balance.

1

To provide a better building experience, the parts in this set are divided into stages. Stage numbers are marked on each bag (e.g. 1A, 1B, etc) and at the appropriate place in the instructions. All bags beginning with the numeral one should be opened first. After the first stage is built, open bags from the second stage and so on.
