MESSAGE FROM THE DESIGNER

Hello!

Thanks for purchasing my original set design. You now own a piece of LEGO® art!

Imagine it! Build it! shows the fun that you can have building with the LEGO system. Whether you collect sets from the many themes, or if you imagineer your own creations, Imagine it! Build it! is a celebration of creativity!

I invite you to create your own micro-builds and have fun customizing the brick. For example you can swap the parrot with the steam locomotive in the character's hand. I encourage you to add to the brick base using parts from your own collection. The brick base is your starting point. Build a city, space landscape, flower garden or anything you can imagine.

This is your chance to imagine it and build it!

Paul Hetherington
Brickbaron

I've been collecting and building with LEGO for 25 years. My favorite styles to build in are architecture and fantasy. I'm known for my use of color and texture and mixing scales to tell stories in my models.

BL19009

IMAGINE IT! BUILD IT!

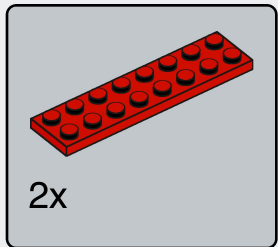

So much creative potential lies within the iconic LEGO® brick, and this design gives the builder a taste of the limitless ideas just waiting to burst out. At the center of the design is a poseable anime character with your choice of heads. Micro models of different themes that surround the character include a: quaint castle, cargo ship with lighthouse, futuristic skyscraper, a cute parrot, and many more!

Display this design with your favorite LEGO sets in your collection to inspire creativity. If you can imagine it, you can build it!

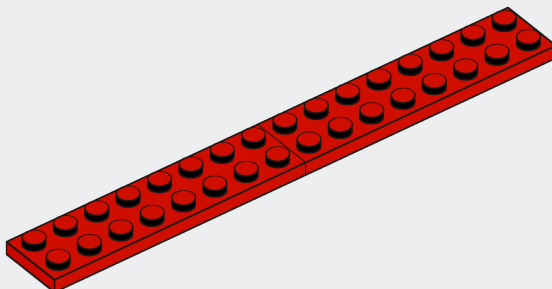

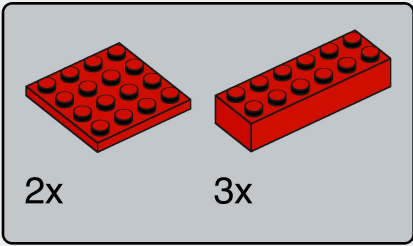

To provide a better building experience, the parts in this set are divided into stages. Stage numbers are marked on each bag (e.g. 1A, 1B, etc) and at the appropriate place in the instructions. All bags beginning with the numeral one should be opened first. After the first stage is built, open bags from the second stage and so on.
