# MESSAGE FROM THE DESIGNER

---

Greetings fellow fan of LEGO!

Thank you for purchasing this set and backing the AFOL Designer Program. I hope you get as much enjoyment from building and using the set as I did from designing it.

I would love to see how you make use of your Skyline Express set, so if you have some photos you would like to share, or if you would just like to get in touch and say hi, please check out my Flickr or YouTube pages.

If you would like some advice on adding power functions to your set, check out the tutorial video on my YouTube page. It covers everything you need for the conversion.

Thanks again, and enjoy your Skyline Express experience!

**Jared Le Cras**  
jazlecraz

I love using a limited palette to produce something interesting and recognisable. I also enjoy building vehicles and scenes from famous movies and video games.

# SKYLINE EXPRESS

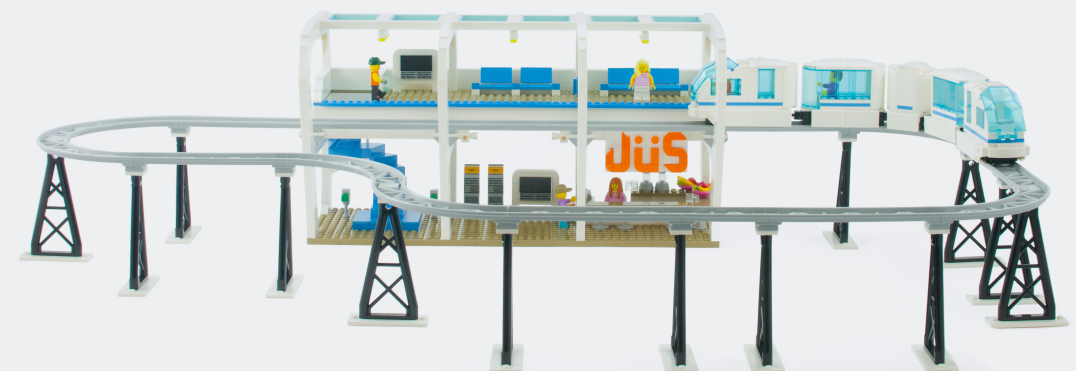

---

The Skyline Express is the ultimate solution for the minifig commute. With room for up to six passengers, panoramic windows and sleek Scandinavian design, this modern light rail is the perfect balance between comfort and style. The split-level station provides travelers with the latest schedule information and convenient smart ticketing machines. Have some time to spare before departure? Get fresh juice at Jūs, the organic juice bar located on the ground floor, where it can satisfy even the thirstiest passenger!

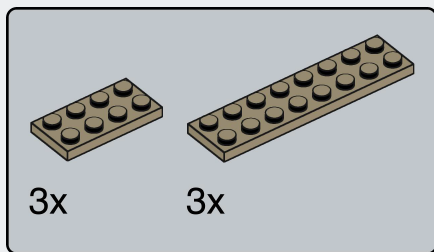

After getting your train ticket and refreshments, make your way up the stairs to take in the breathtaking views.

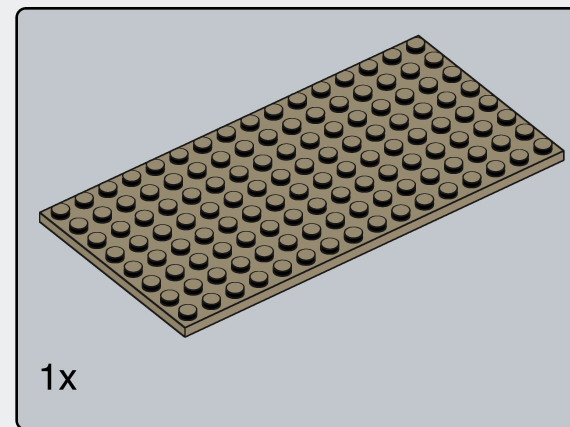

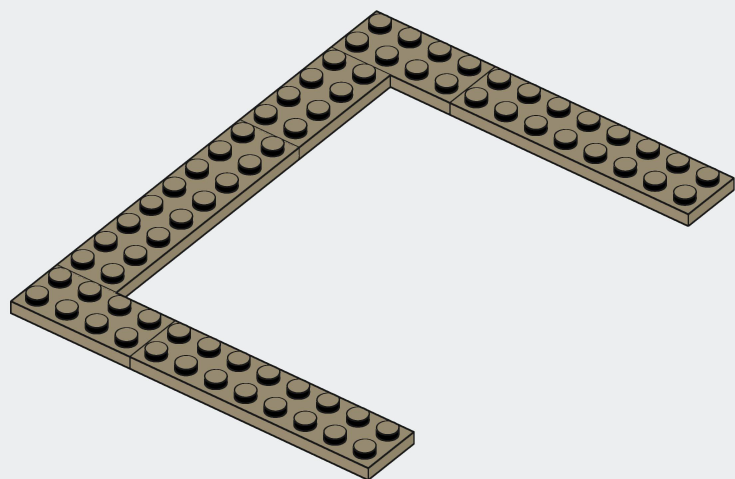

To provide a better building experience, the parts in this set are divided into stages. Stage numbers are marked on each bag (e.g. 1A, 1B, etc) and at the appropriate place in the instructions. All bags beginning with the numeral one should be opened first. After the first stage is built, open bags from the second stage and so on.
