# MESSAGE FROM THE DESIGNER

---

Thank you for buying my design! It was one of my first ones (created almost two years ago), so I'm very fond of it. Honestly, I'm not a chess player. I casually played just a few times like most people, but I have always seen a magic aura with this game. Maybe because chess has centuries of history. The game appears in all cultures and its origin is not clear.

Besides liking the aesthetics, all of the pieces placed in a particular order represents the concept of strategy. Without a doubt, the best of this tiny and compact design is that it can be used to play with occasionally (needs a bit of precision) or displayed like a normal ornament to decorate your space.

Thanks again, and enjoy it!

I started playing with LEGO around 3-4 years old, and my favourite styles are dark fantasy, history, or goth. I believe that playing with LEGO improves skills like creativity and ingenuity.

# STEAMPUNK MINI CHESS

---

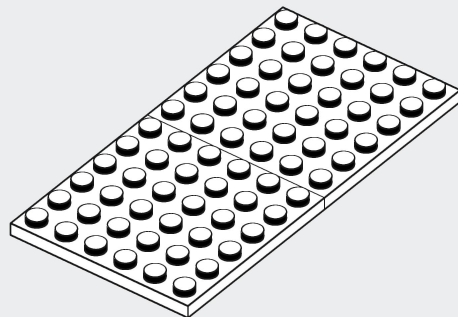

Become the next grandmaster with the Steampunk Mini Chess set! But first, you must learn the basics, starting with identifying the chess pieces. Take it anywhere around the world so that you can have impromptu matches to improve your chess game. Once you're done challenging a friend or foe, you can tuck away the pieces into the built-in drawer so that they will not get lost.

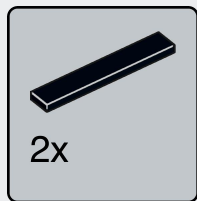

Even if you're not interested in becoming a grandmaster, this Steampunk Mini Chess set will be the topic of any conversation.
