# MESSAGE FROM THE DESIGNER

---

Howdy!

What makes a German fan want to design a Wild West Saloon? I have been building all my life and enjoy coming up with new details and techniques for my models the most. I had the chance to do both with the Saloon – an interesting outside that captures the wooden architecture of the building and an interior filled with brick-built furniture. The old west is also a feast for iconic symbols that I added to get you in the right mood. And of course, playing with tumbleweed is just as fun!

I hope you are now excited and looking forward to building my Saloon. Explore all of the techniques and see how the model will stand on your very own desk.

Before you continue, I just want to say thank you very much! This crowd project was only realised because of your support, and it means a lot to me that you deemed it worthy. Without further ado, I will now let my build speak for itself. Enjoy your building experience and I hope it inspires you!

Sincerely,

**Jonas Kramm**  
Legopard

My building style focuses on details and creativity so that viewers can dive in and explore building techniques. I get inspiration from movies, games, TV series, or other pop culture for my builds.

# WILD WEST SALOON

---

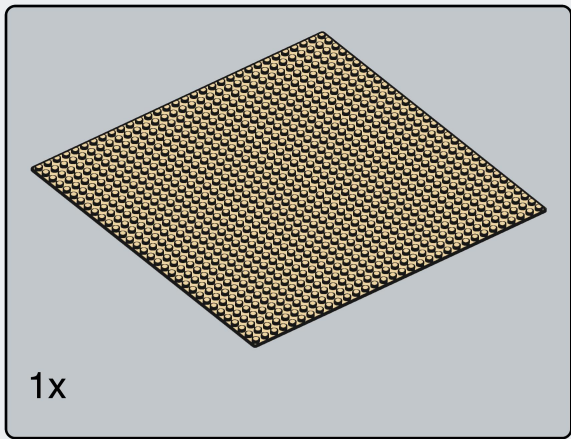

Give your horse a break from dodging tumbleweeds, and stop by the Wild West Saloon for a much needed drink. Just look for the cactus out front with a longhorn skull over the door! After settling in, order something from the Saloon's beverage selection then hang out with other cowboys in the lantern light. If it suits you, walk up to the balcony to bathe in the setting sun while the pianist plays your favorite tunes.

Now that you and your horse are well-rested, get back on the road and continue your adventure into the Wild West.

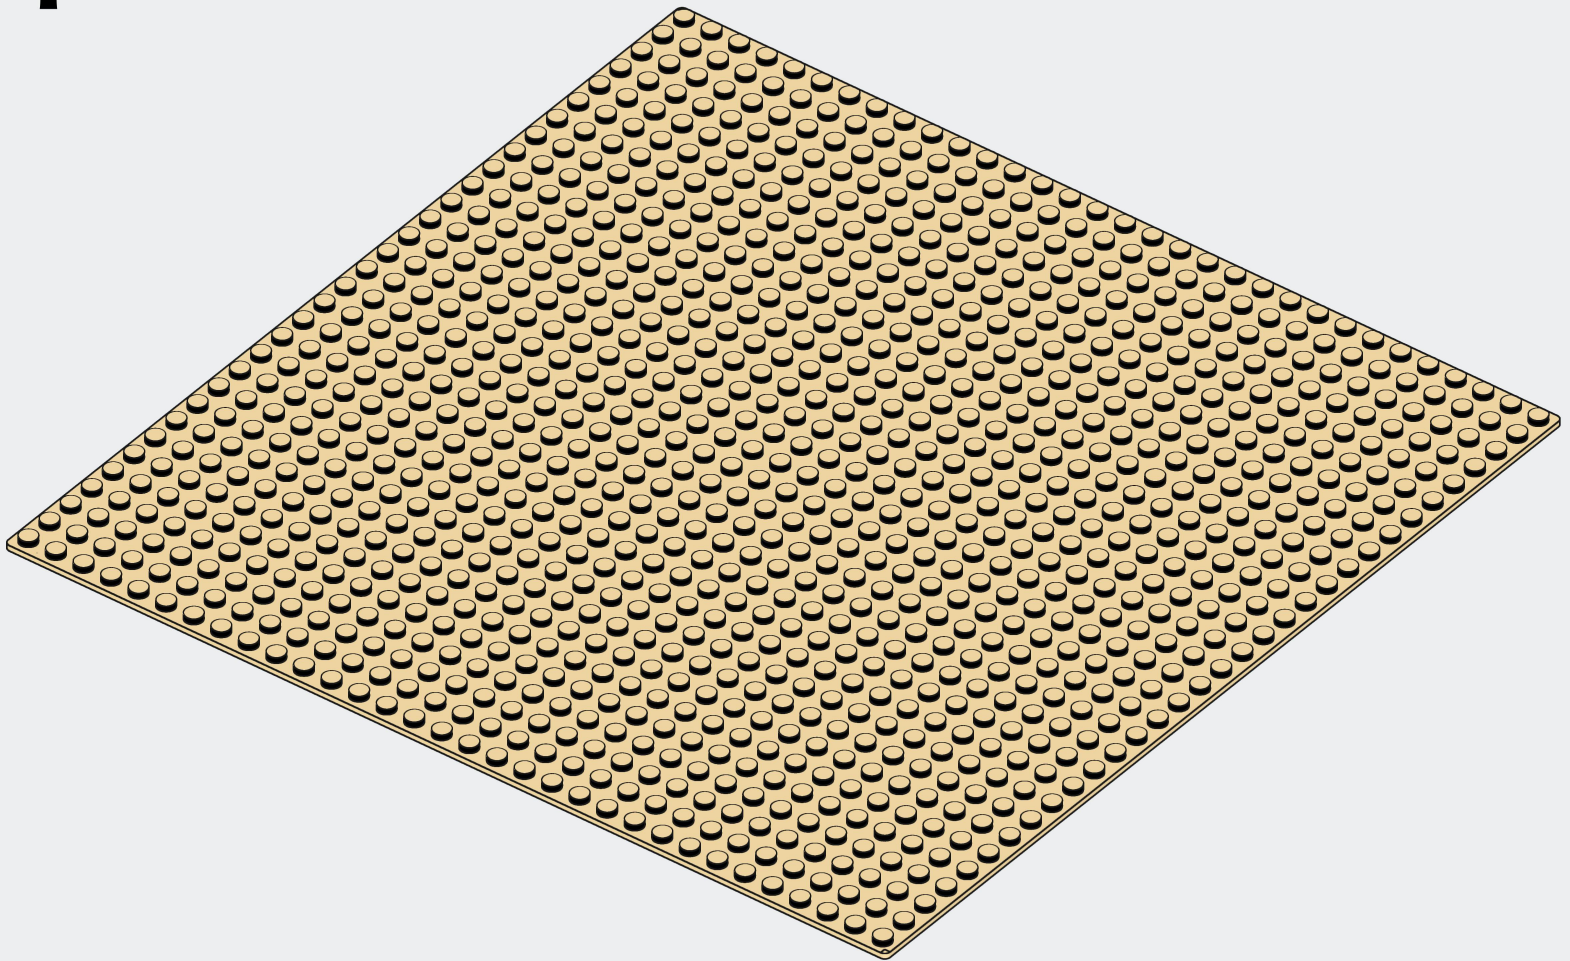

To provide a better building experience, the parts in this set are divided into stages. Stage numbers are marked on each bag (e.g. 1A, 1B, etc) and at the appropriate place in the instructions. All bags beginning with the numeral one should be opened first. After the first stage is built, open bags from the second stage and so on.
